

The Pembroke range of decorative pendant luminaires offer a 1930's variation on the traditional pendant lantern. Manufactured from a combination of aluminium spinnings, the fittings are suitable for both traditional and contemporary applications. The luminaires have an IP65 ingress protection rating.

The Pembroke comes with clear polycarbonate glazing as standard and both the large and medium options are ideally suited and scaled for a 5m to 8m column. Other column heights can also be used depending on requirements. The unobstructed glazing ensures the light output and distribution is not inhibited and the Pembroke luminaire has an EasyFit or BSP pendant connector.

This beautiful pendant is a stunning and simple amenity lighting solution.

Features

- Available in two sizes. **'Medium'** (590mm), **'Large'** (740mm). *Please note all dimensions are approximate and subject to minor change.*
- **Light sources:** High performance (LED COB, LED panels, LED mantles). Conventional lamps with a range of optical distributions to meet varied applications are also available.
- **Lantern construction:**
 - IP65 rated
 - EasyFit pendant connector or BSP.
- **Glazing:** Clear polycarbonate as standard. Various finishes are available on request including, clear, opal and etched. The glazing is released by two stainless steel retaining catches that allow the glazing and brim section to hinge downwards for maintenance access.
- **Control gear:** The control gear, including LED drivers, is housed in the main body of the luminaire on a removable tray.
- **Finish options:** Durable and long-lasting polyester powder paint finishes in a full range of RAL colours. Supplied in black RAL 9005 as standard. Specialist finishes, including marine grade, are available on request.
- Emergency versions available.
- Single and two-part electronic photocells are available upon request.

Mounting options

- The Pembroke fittings are designed to be pendant luminaires with an EasyFit coupling to make installation easy. This method of mounting ensures correct orientation towards the road and eliminates cable twist.
- Available with an EasyFit or BSP connection.

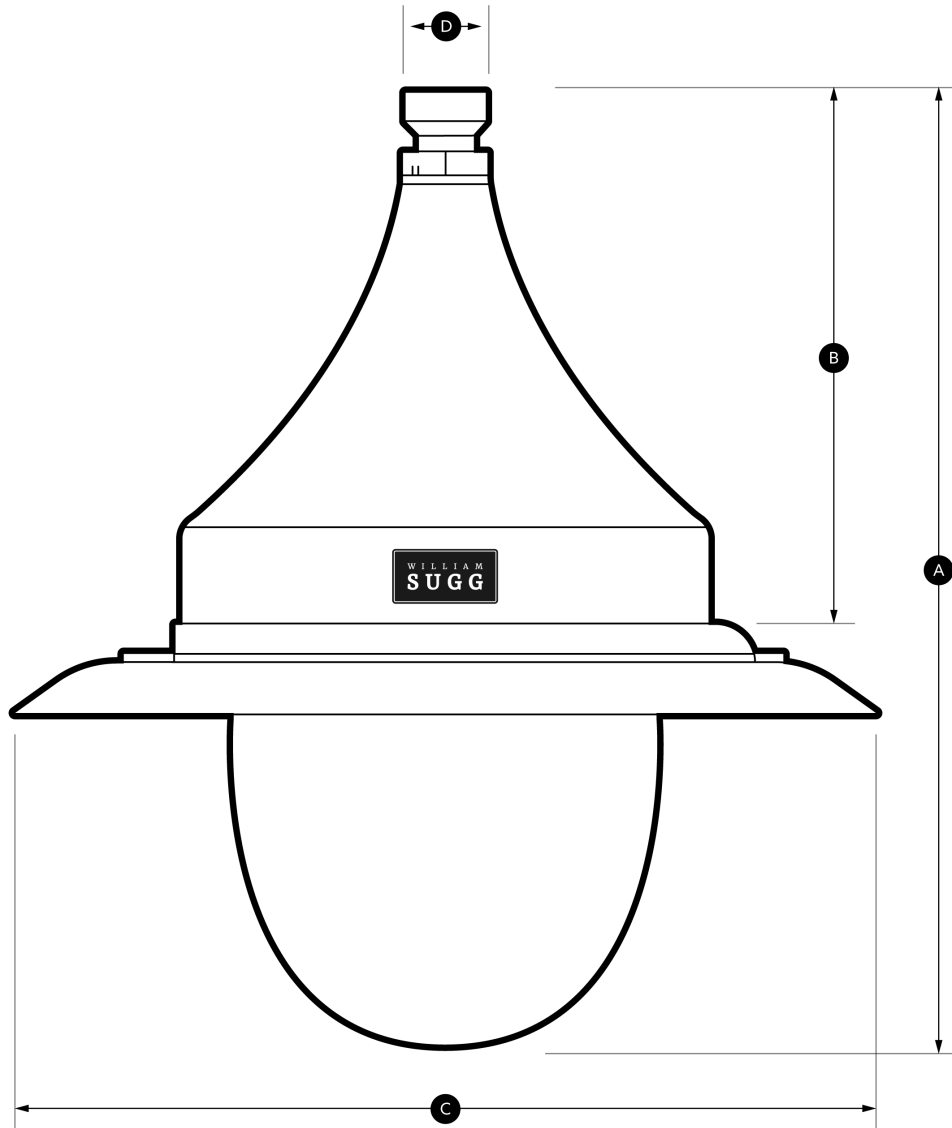

Further technical information available on request.
