

CLASSIC GLOBE

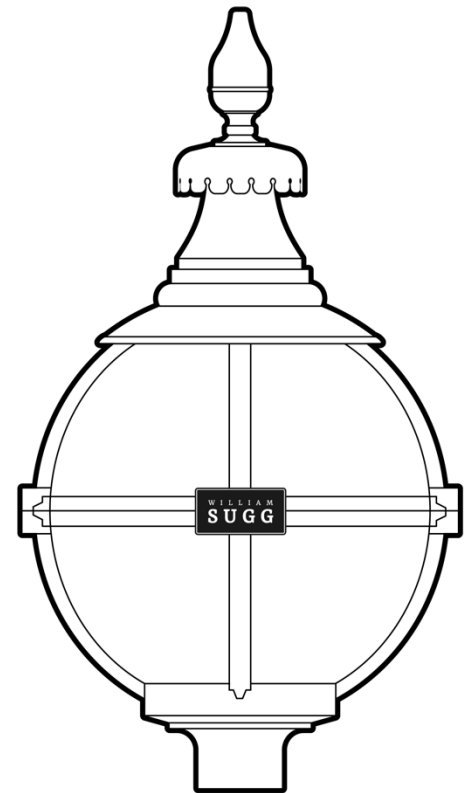

The Classic Globe is a traditional lantern manufactured in two die cast aluminium halves. The finial and ogee set are handcrafted in copper and retain the Victorian heritage styling for which the Classic Globe is so well recognised.

A charming design, this lantern can include a range of lamp and optical solutions that will meet current luminaire design standards giving the advantages of a beautiful decorative lantern, but with easy maintenance and great energy efficiencies.

The Classic Globe may house the glass refractor and the louvre. The globe is split into two hemispheres for ease of access which can allow an opaque upper section, if required, to reduce upward light. The frame is hinged and can be securely closed. The Classic Globe can be applied in many ways to meet the design and aesthetic required, i.e. single or multiple globes can be fitted to one column.

Features

- Available in three sizes. 'Small - 16" (445mm), 'Medium - 18" (483mm) and 'Large - 20" (533mm). *Please note all sizes are approximate and subject to minor change.*
- **Controls:** Our gas lanterns are available with a range of decorative open flame burners or high performance gas mantles.
- **Lantern construction:**
 - IP54
 - Die cast in aluminium with handcrafted copper finial and ogee set
 - Hinged outer frame to reveal interior globe for ease of maintenance.
- **Glazing:** Glass, available in various finishes including, clear, opal and etched.
- **Finish variations:** Durable and long-lasting polyester powder paint finishes in a full range of RAL colours. Supplied in Black RAL 0995 as standard. Specialist finishes, including marine grade, are available on request.

Mounting options

- **Cast base:** A solid, cast aluminium four point fixing, powder coated and suitable for a column or bracket with a 76mm spigot.
- **Side mounting** available for wall mounting where the base casting is removed to offer a different styling.

Further technical information available on request.
